

Hello Montana Dancers

It's fall again and time to dance. I hope your summer was filled with learning, fun, activity, and some rest. October and the 2018 MDAA Workshop are just around the corner. We can all come together with the positive energy that dancers possess and share the joy of movement.

We are excited to have the workshop in Great Falls. The venues are close together and have plenty of space. The slate of teachers is impressive with something for everyone. Teachers, once again do not miss the special sessions with Wendy Masterson who has retired from Interlochen in Michigan and is back home in Montana. She will share her Embodied Movement Principles with us on Friday and Saturday.

Be sure to follow the guidelines so you participate in the proper level and get the most out of all the classes you take. The schedule allows you to take different classes on different days.

It is always an honor to work with MDAA. We extend a big thank you to our Board of Directors for their hard work and dedication. MDAA workshops inspire, train, motivate, and further our knowledge of the arts.

Alright everyone, it's time to get registered, pack up your shoes, jump in the car, and come to Great Falls!

See you in October.....

Miss Linda and Miss Sarah

Workshop Directors, Linda Fuller and Sarah Dassinger
